PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 2 years of enterprise experience designing and deploying scalable backend, frontend, and cloud solutions. Proven expertise in leveraging Golang, Spring Boot, React, Node.js, Next.js, Angular, AWS, and Azure to build secure APIs, high-volume batch processing systems handling millions of records, and highly responsive user interfaces. Adept at driving technical compliance for critical SOC 2 audits and mentoring cross-functional teams within agile environments to deliver robust enterprise applications.

TECHNICAL SKILLS

- **Backend & Frameworks:** Java, Spring Boot, Golang, Node.js, Express.js, Python
- **Frontend & UI:** React.js, Next.js, Angular, JavaScript, HTML, CSS, Responsive Web Design
- **Cloud & Architecture:** AWS (EC2, S3, IAM, VPC, Lambda, RDS), Azure, Cloud Computing methodologies, Microservices Architecture
- **Tools & Version Control:** Git, GitHub, Postman, Hyper Terminal, MS Visual Studio, Eclipse, PyCharm

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) | Mumbai, Maharashtra

Software Engineer

Sept 2024 - Present

- **Backend Architecture & Cloud Integration:** Designed and developed secure APIs utilizing Golang and Azure for the US division of a major North American financial institution, ensuring robust cross-border system integration.
- **System Design at Scale:** Architected and built a highly scalable Spring Boot batch-processing system from scratch, orchestrating four interconnected jobs across multiple external systems to successfully process and manage millions of data records.
- **Frontend Development & UI Optimization:** Spearheaded frontend architecture improvements utilizing Next.js, significantly strengthening application responsiveness and the overall client user experience.
- **Enterprise Product Enhancement:** Led the frontend transition and enhancement of a proprietary enterprise product using Angular, delivering upgraded functionality and smoother workflows for international stakeholders.
- **Compliance & Audit Leadership:** Served as the primary technical facilitator during a critical SOC 2 audit, collaborating directly with external auditors (Deloitte) to validate system controls, security artifacts, and enterprise governance standards.
- **Team Mentorship:** Mentored and onboarded new technical associates, providing guidance on system architecture, coding best practices, and agile workflows to accelerate their productivity.

EDUCATION

Rewa Engineering College | Rewa, Madhya Pradesh

Bachelor of Technology in Computer Science | CGPA: 8.07/10

Jun 2020 - Jun 2024

ACADEMIC & PERSONAL PROJECTS

- **AI Virtual Assistant (Jul 2023 - Jun 2024):** Developed a web-based AI assistant focused on logical understanding and navigation, utilizing React.js for the frontend and Node.js/Python for backend logic.
- **Lung Disease Classification Project (Jan 2024 - Feb 2024):** Built a machine learning classification pipeline for lung disease prediction using Logistic Regression, Decision Trees, and Random Forest models in Python.
- **Resume Builder Website (Jun 2023 - Aug 2023):** Engineered a full-stack resume-building web application with a React.js frontend and a Node.js/Express.js backend, focusing on structured client-server data flow.
- **Optical Character Recognition (OCR) Web App (Jul 2022 – Nov 2022):** Implemented an image preprocessing and text extraction tool utilizing OpenCV and pytesseract within a Flask-based application.

LICENSES & CERTIFICATIONS

- AWS Certified Solutions Architect – Associate, Amazon Web Services (AWS) (Aug 2026 – Aug 2029)
- Microsoft Certified: Azure Data Scientist Associate, Microsoft (Oct 2025 – Nov 2026)
- Web Development Fundamentals, IBM (Jul 2023)
- 100 Days of Code: The Complete Python Pro Bootcamp, Udemy (Aug 2023)
